Safer spaces. Cleaner living.
Simple choices make a difference.

Making safer choices should be easy

At Norwex, our Mission has never been more important: reducing chemicals in everyday lives to make homes cleaner, safer, better. With so many harmful ingredients in the air we breathe, the water we drink and the products we use, the choices we make each day really do matter.

"If we had the knowledge and choice, I don't think we'd expose ourselves to harmful chemicals. We don't need to compromise the way we're living our lives."

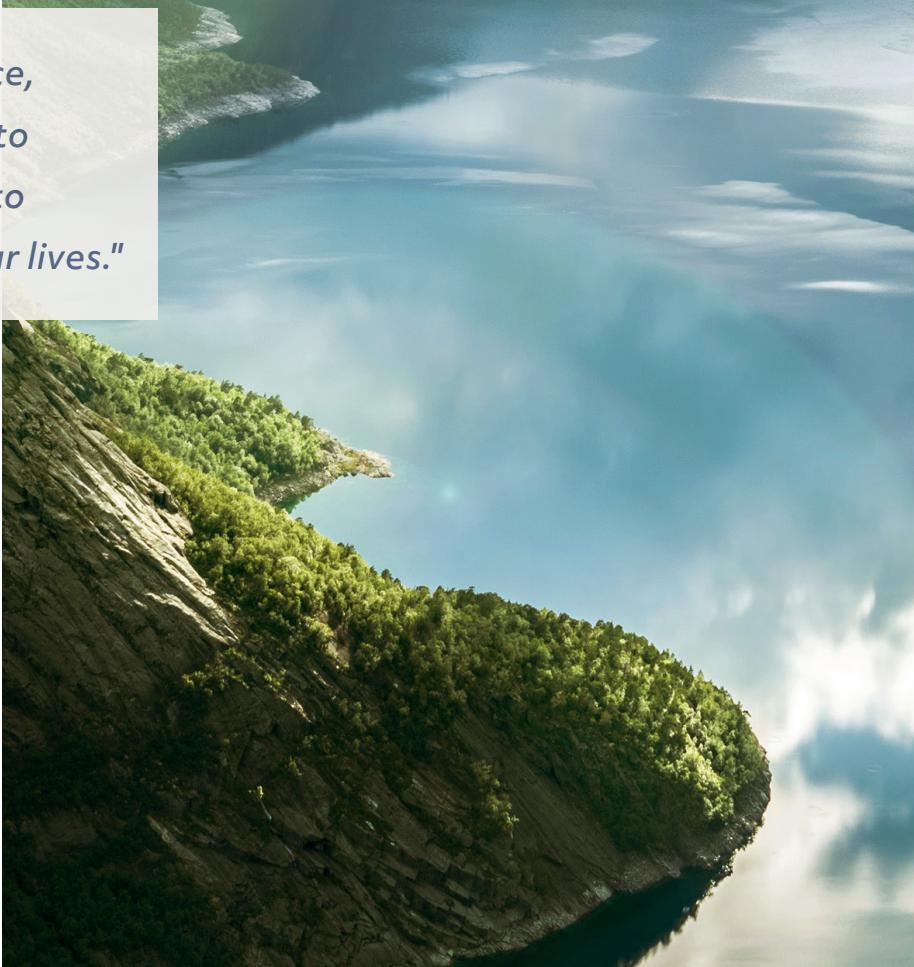

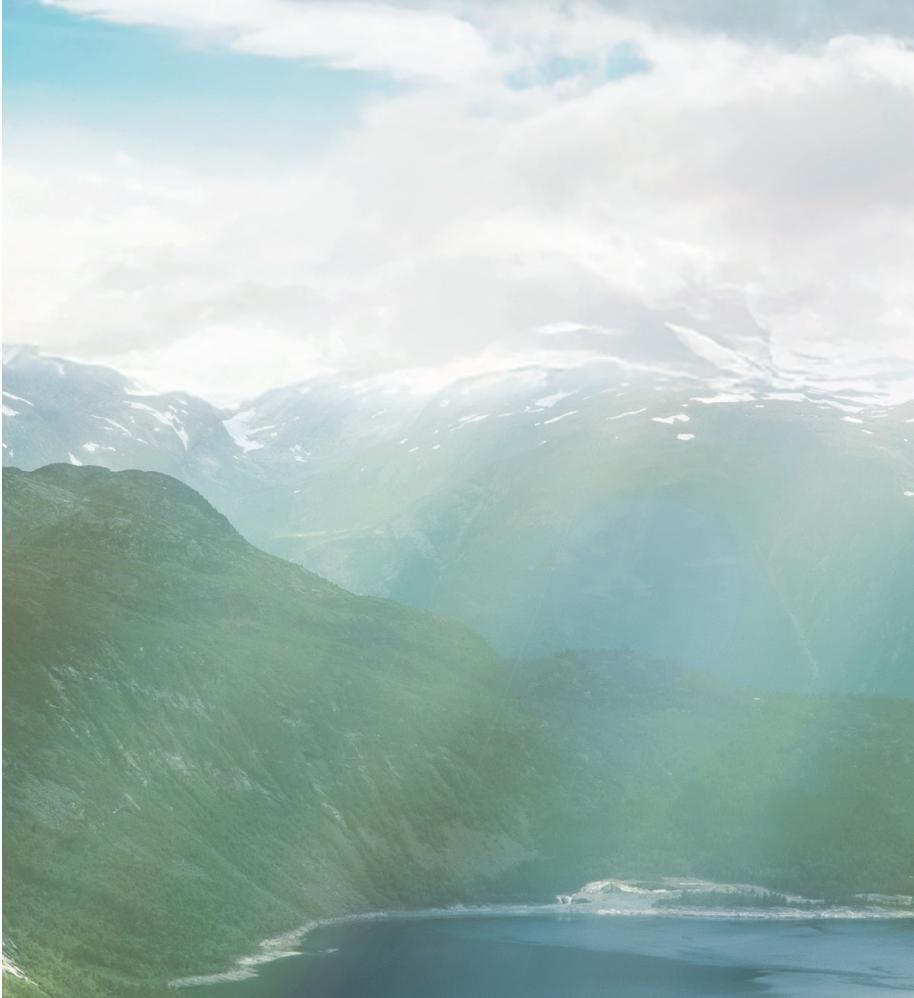

I know it can feel hard to balance what's best for your family, your budget and the planet. That's why we've made it our job to make those choices easier.

When you choose Norwex, you can feel confident knowing we've done the work for you – so living cleaner and better truly becomes easier.

Norwex. Live cleaner, safer, better.

The Norwegian Way

We believe in a simpler way, free from harmful chemicals and waste.

We do clean without compromise, one person at a time, one home at a time.

We don't look to judge, but to educate and inspire. Wherever you live life, we'll help you live it cleaner, safer, better.

Simple ways we can help ...

FEWER HARMFUL CHEMICALS

Did you know that more than 85,000 chemicals are registered for commercial use by the EPA, yet very few have been tested for toxic effects on children? The best way to protect your family's health is to remove as many chemicals from your home as possible.

53 chemicals

that may be in your home can be eliminated by simply using Norwex Microfiber and water.

Based on a comparison of Norwex Microfiber products to 18 retail brand cleaning products, 2020.

LESS WASTE

Single-use waste stresses our landfills, pollutes water and air, and harms ecosystems.

75%
of our skin care line
is packaged in refillable
containers.

LESS PLASTIC

Plastic pollutes our water, soil and oceans and can harm people and wildlife.

12+ million
plastic bottles
saved from the landfill,
thanks to recycled materials
in our products.

Our Mission

Sharing a cleaner, safer way of living
by reducing harmful chemicals
in everyday lives.

the Norwex purpose.

Innovative. Safe. Proven.

Everything we make is designed to deliver a cleaner, smarter way to care for your home and family.

Safe Ingredients

With our 360° Product Safety Review, every ingredient is carefully evaluated to ensure it's safe and truly effective.

INGREDIENT TRANSPARENCY

The Norwex No-No List details more than 2,700 harmful ingredients we will never use – so you can trust every choice for your home and family.

ENVIRONMENTAL WORKING GROUP

EWG Verified® means our products meet the strictest standards for safety, transparency and sustainability.

ENZYME- & BIOTIC-BASED CLEANERS

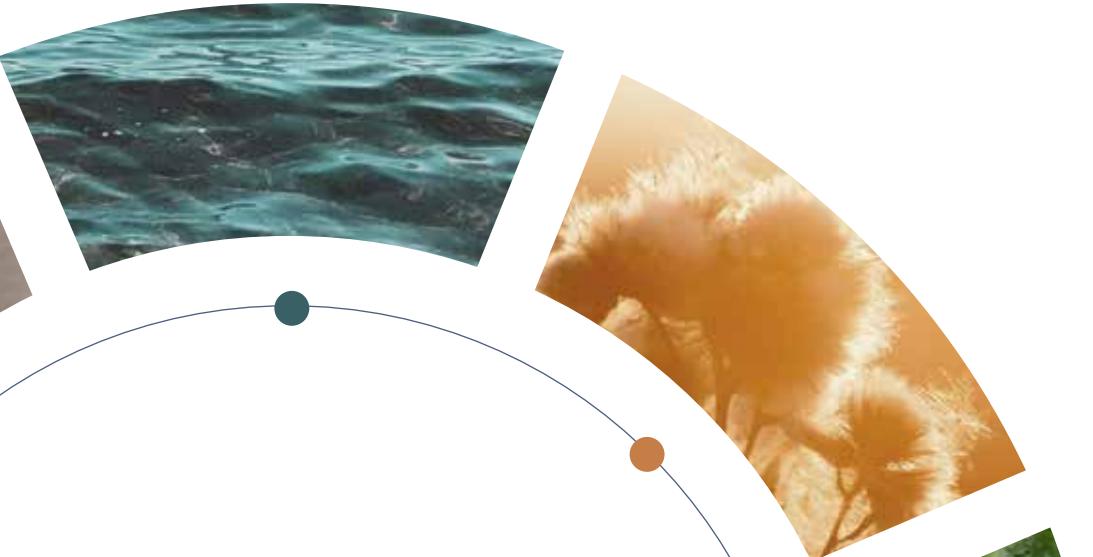

Many of our cleaners use enzymes or biotics to break down stains and odours – no harmful chemicals needed.

Scan to discover more about enzymes.

Products you can feel good about

From sourcing to standards, we're open about the choices we make – so you can feel confident in yours.

Global Quality Standards

We follow global guidelines, and our third-party verifications let you know our products are safe and effective.

STANDARD 100 BY OEKO-TEX®

When you see OEKO-TEX® you can be sure that every component – from yarn and dyes to trim and label – has been certified free from harmful substances.

USDA CERTIFIED BIOBASED

Indicates that a significant percentage of the product is derived from plants and other renewable agriculture, marine and forestry materials.

Product Innovation

Thoughtfully engineered formulas use the right science in the right places for superior performance.

BacLock® ANTIMICROBIAL AGENT

BacLock®, our antimicrobial agent, inhibits odour in the cloth, so it's ready to use again and again, which means you launder less.

LESS IS MORE – CONCENTRATES

Big clean, small footprint. Concentrates use less packaging and less water, and they create less waste.

Sustainability

Our commitment to conscious design shows in recycled materials and reduced plastic that lessen environmental impact.

RECYCLED OCEANBOUND PLASTIC

Made from plastic that falls outside normal collection processes and was in danger of becoming part of the 9 million tons of discarded plastic estimated to flow into our oceans every year.

RECYCLED MATERIALS

Our microfiber contains up to 91% recycled materials, and much of our product packaging contains recycled plastic, giving it a second life in your home.

*BacLock is an antimicrobial agent solely intended to protect and self-clean the cloth by inhibiting growth of odour-causing bacteria, mould and mildew. BacLock does not protect people from disease-causing pathogens.

NORWEX MICROFIBER

Unmatched quality. Unmistakable clean.

From the tiniest dust particles to sticky, stuck-on messes, Norwex Microfiber uses mechanical cleaning to physically remove dirt and up to 99% of bacteria from a surface with water alone.[†]

Extremely Effective

Dense and durable Norwex Microfiber picks up whatever life lays down, removing the need for harmful household chemicals or wasteful, single-use products.

Highly Absorbent

Extra-absorbent Norwex Microfiber cloths can absorb up to 7 times their weight in water!

Fresher Longer

Just rinse, hang and reuse! The BacLock[®] antimicrobial agent protects the cloth by inhibiting odour in the cloth, which means it's ready to use again and again.

Sustainable

With many products containing up to 91% recycled materials, Norwex has helped keep millions of plastic bottles out of landfills.

Two ways to use:

Used wet, Norwex Microfiber lifts messes up into the cloth and away from the surface. Used dry, the fibers create an electrostatic charge that grabs and holds the smallest dust particles.

All Norwex Microfiber products carry a two-year warranty. For details please visit: <https://www.norwex.com/product-guarantee?store=ca>.
